

AMIT CHAKRABORTY

Senior Frontend Engineer · React · TypeScript · Next.js · AI-Native Development

amit@devamit.co.in · +91-9874173663 · Kolkata, India · Remote · memflowmuse.devamit.co.in
amitchakraborty.dev · github.com/devamitch · linkedin.com/in/devamitch · devamitch.medium.com

Senior Frontend Engineer with **8+ years** building polished, production-grade product surfaces in **React + TypeScript**. I specialize in **AI-native interfaces** — agent-orchestration canvases, RAG-powered dashboards, and streaming LLM chat — shipped end-to-end with **Next.js (App Router, RSC), Tailwind, and shadcn/ui**. I work fluently with AI coding tools — Claude Code, Cursor, Codex, Windsurf — to ship faster, while owning every architecture, type-safety, and UX decision myself. Track record of **18+ production apps** and design systems that scale, owned from component architecture and UX through release.

AI-NATIVE ENGINEERING

8+ years of hands-on engineering, **accelerated** with AI tooling. The architecture, type design, and UX calls are mine — AI compresses the execution. I direct these tools; I don't depend on them.

AI coding tools I work with: Claude Code · Cursor · Codex · Windsurf · GitHub Copilot · Ollama (local models)

- ▶ **Built a persistent memory & context system for my own AI workflow.** A portable “digital twin” layer carrying my engineering standards and project knowledge across Claude Code, Cursor, Ollama, Gemini, and Copilot — modular architecture, deterministic rebuilds, one source of truth every agent reads from.
- ▶ **Spec-first, context-first development.** I drive multi-file agentic refactors and generate features from tight specs, treating prompt and context engineering as a first-class discipline — without sacrificing UI craft or type safety.
- ▶ **Deep LLM integration in production:** RAG pipeline design, LangChain / LangGraph, vector DBs (Pinecone, pgvector, Qdrant), Redis, MCP (Model Context Protocol), function calling, structured outputs, and streaming completions.
- ▶ **Full prompt logs & AI session docs are public** — in my MemTrace Studio repo (a Mem0-powered build, detailed below):
github.com/devamitch/delightful-canvas-spark and memflowmuse.devamit.co.in

FEATURED AI PRODUCT SURFACES

- ▶ **Aura Studio** — Visual AI orchestration platform. A React Flow nodal canvas with 45+ pipeline node types for composing multi-step LLM agent workflows. Next.js · TypeScript · LangGraph · RAG · Gemini API — an agent-builder dev tool, directly in Mem0's domain.
aurastudio.devamit.co.in
- ▶ **KSHEM** — Global land-intelligence platform. Next.js 16 · 20+ stakeholder portals · AI document analysis (Claude) · GIS / PostGIS boundary engine — multi-tenant, dashboard-heavy frontend. kshem.devamit.co.in
- ▶ **Aura Arena** — Real-time AI movement PWA. MediaPipe pose detection at <16ms/frame · WebGPU acceleration · Supabase Realtime multiplayer — cutting-edge frontend with on-device inference. auraarena.devamit.co.in
- ▶ **Neev** — AI-guided family operating system. Next.js 16 · TypeScript · Claude AI — scheduling, communication & wellness product surfaces. neev.devamit.co.in
- ▶ **HarmonyBloom** — Privacy-first wellness Telegram Mini App. On-device AI inference · AES-256-GCM zero-knowledge encryption · gamified behavioral systems. harmonybloom.devamit.co.in
- ▶ **MemTrace Studio** — Personal AI memory dashboard built on Mem0 (purpose-built for this role). Streaming RAG chat with a live memory rail, a searchable memories canvas, and push-to-talk voice AI (ElevenLabs). React 19 · TypeScript · TanStack Start (SSR, server functions) · Tailwind v4 (oklch tokens) · shadcn/ui · Vitest — full architecture docs and AI prompt logs in-repo.

PROFESSIONAL EXPERIENCE

Synopsis Medical Technologies Inc. Jan 2025 – Feb 2026

Founding Senior Engineer · Frontend & AI Platform · HealthTech / AI Remote — Edmonton, Canada

- ▶ **Owned the React + Next.js product surface** (App Router, RSC) for a HIPAA-compliant HealthTech AI platform — component architecture, design system, and UX quality across the product.
- ▶ **Designed and shipped AI product UI:** streaming Claude / GPT chat interfaces, RAG-powered semantic search, and AI document-processing workflows — on a LangChain + Pinecone + Bedrock pipeline at 99.9% uptime.
- ▶ **Built a reusable design system + component library** (Tailwind + Radix/shadcn-style primitives) — consistent, accessible, polished surfaces across 5 products.
- ▶ Shipped **5 production apps 0→1**, owning frontend from design through App Store / web release, with **zero critical post-launch incidents**.
- ▶ **Used Claude Code + Cursor to accelerate delivery** — agentic refactors and spec-driven feature builds, with the design and architecture calls my own; enforced reviews, pre-commit hooks (Husky), ESLint, Prettier.

- Scaled the engineering team **0** → **21 engineers**, drove frontend standards and code reviews; **3 engineers promoted to senior**.

NonceBlox Pvt. Ltd. Oct 2021 – Jan 2025

Lead Frontend Engineer (React / Web3) · FinTech / Web3 / Gaming · 13+ products Remote — Dubai

- **Led React.js frontend across 13+ production products** — real-time dashboards, Web3 dApp UIs, and payment / transaction surfaces.
- **Built complex interactive UIs:** live data dashboards, WebSocket / GraphQL-subscription real-time views, wallet-connect dApp surfaces (WalletConnect, MetaMask), and multi-provider checkout (Stripe, Razorpay, Binance Pay) — 35% transaction growth.
- **Architected scalable frontend patterns** — state with Zustand + React Query, reusable component systems, and rendering/performance optimization across platforms.
- Owned frontend delivery end-to-end; mentored **8+ engineers** through code reviews, system-design sessions, and ADRs.

TechProMind & WebSkitters 2017 – 2018

Frontend / Full-Stack Developer · Government & Enterprise Kolkata, India

- **Migrated a legacy PHP government portal to Angular + REST** — 40% efficiency gain; delivered 13+ systems with zero post-deployment security incidents.

Freelance Full-Stack Developer 2018 – 2021

Self-Employed (part-time during MCA) · Hospitality / SMB Remote

- Shipped hotel-management systems, REST APIs, and database-driven platforms while building strong fundamentals in web architecture and API design.

TECHNICAL SKILLS

Frontend & UI React (16–19 · Concurrent · Suspense · RSC) · TypeScript (strict) · Next.js 14/15/16 (App Router, RSC, SSR/SSG/ISR, Edge) · Tailwind CSS · shadcn/ui · Radix · Framer Motion · GSAP · Design Systems · Storybook · WCAG 2.2 · WebGPU · Canvas · PWA · Vite · Turborepo · React Native (cross-platform)

AI & LLM Integration Claude (Sonnet/Opus) · OpenAI (GPT-4o / o-series) · Gemini · RAG Pipeline Design · LangChain · LangGraph · Vector DBs (Pinecone, pgvector, Qdrant, Chroma) · MCP · Function Calling · Structured Outputs · Streaming · Prompt & Context Engineering · AI Agent UIs · Semantic Search · MediaPipe · TensorFlow.js · On-Device Inference · Amazon Bedrock

AI-Native Dev Tools Claude Code · Cursor · Codex · Windsurf · GitHub Copilot · Ollama (local models)

State & Data Zustand · Redux Toolkit · TanStack Query · SWR · Apollo Client · Zod · React Hook Form

Frontend Infra & Quality Vercel · Netlify · Cloudflare Pages/Workers · GitHub Actions · ESLint · Prettier · Biome · Jest · Vitest · Playwright · Lighthouse · Core Web Vitals

Supporting Backend & Cloud Node.js · NestJS · REST / GraphQL (Apollo, DataLoader) · PostgreSQL · Redis · MongoDB · Supabase · Firebase · AWS · Docker

SELECTED SHIPPED PRODUCTS

- **Vulcan Eleven** — Fantasy-sports platform · React Native · real-time transactions · live on iOS + Android.
<https://play.google.com/store/apps/details?id=com.vulcaneleven&pli=1>
- **Housezy** — PropTech app · Expo Router · GraphQL · Socket.io real-time · PostGIS proximity search · live on iOS + Android.
<https://apps.apple.com/us/app/housezy/id6471949955>
- **MusicX** — Music / media app · 60fps audio visualization · Spotify API · live on iOS.
<https://apps.apple.com/us/app/music-x/id6475713772>
- **Be4You** — Social-discovery MVP · WebRTC video · Socket.io chat · PostGIS geo-matching · 90-day 0→1 build → client secured seed funding.
- **DeFi11** — Fully on-chain fantasy sports · Solidity smart contracts · NFT marketplace · ERC-721/1155.

EDUCATION

Master of Computer Applications (MCA) — CGPA 8.61

Techno Main Salt Lake, Kolkata · Aug 2018 – Aug 2021

Bachelor of Computer Applications (BCA) — CGPA 7.23

The Heritage Academy, Kolkata · Aug 2014 – Aug 2017
